

## Global Distributor Technical Bulletin

Welcome to our new Technical Bulletin.

We want to keep you informed of the latest product updates, new options, Group news and any other information of interest to our Global Distributor Network.

## TRRG Invest in Distributor Online Services Initiative

[Distributor Support Portal](#)

The last year has seen TRRG's export team working hard to implement an online support portal initiative into the global network of our distributors.

This encompasses the ePDI process, online warranty registration, warranty claim process and also offers a technical library. With multi-device compatibility, the system can be used across mobile, tablet and desktop devices and protects against errors, ensuring that any repair or parts are correct for the equipment.

One key objective was to implement an electronic Pre-Delivery Inspection (ePDI) system commensurate with TRRG's manufacturing sites across Europe, the aim from the outset being to ensure that the customer experience is the same regardless of where a client procures a TRRG product and that the build quality at our dealers is identical to that of a TRRG subsidiary built product.

Jeremy Boanson-James, Export Technical Manager for TRRG has been leading the charge to implement the initiative at all dealers and has so far received a great reaction.

## TRRG Magazine - Issue 2

TRRG Magazine Issue 2 has arrived and offers an exciting range of news, innovation and product insights from across the group.

In this special 150 anniversary edition, you can learn about the heritage behind the Terberg brand, which started as a village forge in the Netherlands, and our growth over the years.

We also take a journey across the Atlantic to Colombia's capital city Bogota to discover the positive influence of a joint project between our German and Spanish subsidiaries.

Travelling back to Europe, we also visit Berlin to see how BSR, Europe's largest municipal collector are benefitting from TRRG solutions and how a very special product is meeting needs in the Nordic region.

You'll also find exclusive insights into our growing network of dealers as well as a host of exciting new projects we've been working hard to deliver.
